The focus of a Well-Woman Visit is preventative care. If tests or services beyond the scope of a Well-Woman Visit are provided, then additional charges may be incurred for those services. The choice to address both well care and medical issues is offered for the convenience of avoiding two visits; however, you may owe a cost share/copy for this additional service. Although our office will assist you with your insurance processing, it is the patient's responsibility to understand their insurance benefits.
